

K-Love radio station is the only positive encouraging radio station in my area that I can tune into. I am a financial sponsor of this station which should explain how important it is to me as a listener that they are listener supported. If I can no longer tune into K-love it would greatly affect my life in my community. If K-Love were changed to a LPFM I would not be able to tune in. All over I see bumper stickers of people who listen to Klove. This is a nation wide station that people in each town of our country rely on for their day to day lives. Please reconsider changing to an LPFM where K love can not be heard. Thank You!
